### Category 5 Cross-Connect Wire & Cable Prep Tool

*Twisted-pair cable that won't come loose during installation.*

#### Key Features

- ▶ Unique "webbed" insulation maintains consistent conductor spacing and integrity.
- ▶ Exceeds EIA/TIA TSB-36 Category 5 specifications.

#### Technically Speaking

The Category 5 Cross-Connect Wire utilizes a unique "webbing" manufacturing process that binds conductors of a twisted-pair cable to maintain consistent conductor spacing. The pair twists won't come loose during installation, and the cable exceeds EIA/TIA Category 5 specifications. The Cable Prep Tool strips the outer cable jacket and safely separates the webbed conductors.

### Ordering Information
