Contractor Relay Rack *The value-priced rack and cable-management system for contractors.*

Relay Rack

- One-piece top with integrated mounting holes accepts 6", 9", 12", and 15" ladder racks.
- Universal hole pattern for joining Rack to equipment from other manufacturers.
- Cable feed-through holes enable cable to pass through while minimizing cable bends.
- One-piece base provides maximum load-bearing capacity that's twice that of UL® requirements. It also keeps terminated cable scrap from falling into the base.
- Elongated floor-mounting holes make it easy to secure the rack to the floor.
- Rear mounting slots so you can adjust accessories easily.
- Features industry-standard front and rear 12–24 holes.

Rear Cable Management Shelf (optional)

- Easily adjustable Shelf features quick-release thumbscrews. Move it up and down the Rack slots with a turn of a knob.
- Includes reusable cable ties and mounting screws.
- Provides easy access to terminations when making additions and changes.

Vertical Cable Organizer, Covered Model (optional)

- High-capacity front cable channel measures 6" x 6". Rear channel measures 3" x 6".
- Removable rear-channel gates swing open for easy cable access. Gates feature push-pull latches.
- Removable front covers conceal cable runs. Unique plunger-type latches make securing and removing covers a snap.
- Side access ports provide direct access to horizontal cable organizers.
- Universal hold pattern provides compatibility with racks and equipment from different manufacturers.

Vertical Cable Organizer, Economy Model (optional)

- Two-piece design minimizes storage space.
- Features bridge lances for cable ties.
- Large 3.5" rings hold cable neatly.
- Hold pattern designed for mounting on the left, right, side, top, or bottom.
- 16-gauge steel construction.
