NETWORK SERVICES

SonicWall Firewall

Key Features

- ▶ **State-of-the-Art Firewall Security.** SonicWALL Internet security appliances use stateful packet inspection technology that provides around-the-clock protection from hackers and Denial of Service (DoS) attacks.
- ▶ **Network Anti-Virus (Optional Upgrade).** SonicWALL Network Anti-Virus ensures your business is protected against the latest virus outbreaks by automatically updating all the clients on your LAN with new cures.
- ▶ **IPSec VPN (Optional Upgrade).** SonicWALL VPN provides IPSec-based virtual private networking to enable secure remote access/glossary.html - sss for remote workers, branch offices, customers, suppliers, and partners.
- ▶ **Authentication Service (Optional Upgrade).** SonicWALL Authentication Service uses digital certificates to allow your organization to verify the identity of VPN users before granting them access to your valuable and confidential resources.
- ▶ **Internet Content Filtering.** SonicWALL's content filtering allows organizations to manage Web access and restrict access to time-wasting and objectionable material with built-in support for URL filtering, keyword blocking, cookie, Java and ActiveX blocking. Adding SonicWALL's Internet Content Filter List Subscription extends the built-in content filtering features with the widely accepted CyberNOT List from CyberPatrol.
- ▶ **AutoUpdates.** SonicWALL Internet security appliances maintain the highest level of security with FREE automatic firmware updates for the life of the product.
- ▶ **ICSA Certified.** SonicWALL Internet security appliances are certified/glossary.html - trusted by the International Computer Security Association (ICSA), the world's most trusted security assurance authority.
- ▶ **DMZ (De-Militarized Zone).** The SonicWALL XPRES2's DMZ port allows users on the Internet to access information on multiple public servers, such as Web, E-commerce or E-mail servers, while maintaining the security of the private LAN.
- ▶ **Easy Setup and Administration.** SonicWALL Internet security appliances incorporate an award-winning, userfriendly Web interface for easy setup and administration.
- ▶ **Robust, Scalable Architecture.** SonicWALL Internet security appliances meet the high-demands of today's Internet security environment and provide a scalable platform for future upgrades.
