

IEC POWER STRIPS

Key Features

- ▶ **Industry Standard IEC 10A Outlets**
- ▶ **Robust Metal Construction**
- ▶ **19" Rack Mount fittings included**
- ▶ **Warranty 1 year**

These rack mount PDUs or Power strips are available in both horizontal and vertical mounting formats. Solidly built with metal housings the fittings such as cage nuts and screws are included with each unit.

Two connections to the main supply side are provided to match the outlets on the Black Box Rack Mount UPS product range. For the 2500 and 3000VA models the PDUs are fitted with a C20 connector. For the models with

higher capacity up to 6000VA there is a heavy duty lead with bare ends for direct hard wired connection to the UPS outlets.

Specifications

Size:

483W x 45H x 58D mm

Weight:

1.26Kg

Connectors:

Outlets: IEC C15 Sockets, Maximum Power per outlet: 10 Amp

Supply: IEC C20 Plug, Models PDUIECXX-C20

Direct connection on models PDUIECXX-NC

Maximum Power Total:

16 Amp, Models PDUIECXX-C20
30 Amp, Models PDUIECXX-NC

Indicators:

Supply "on" in mains switch - all models except 16 way horizontal versions. The 16 way Horizontal models are unswitched and unindicated.
